Our Story

Bicast Inc. is a family business based in Williamsburg VA. We design, manufacture and hand assemble our own products with the utmost care to provide our customers with unique souvenir items that really sell! Our low minimums make sense. Having been in business for 30 years we know what works, and we are hoping to be working with you 30 years from now!

How We Do It

We begin by creating a customized Bi-Level Magnet from our design guide (located on the next four pages) or a fully custom design for your site. We can then convert it into a single level ornament, cherry ornament, and a Bi-Level ornament. We can also place it on any of our other products in this catalog.

Custom Designs

We offer custom designs for your site. There is a one time \$75 art charge and then you can then use that art on anything in the catalog.

We can also use your art to create a design. Please provide a vector file. There may be an art fee depending on the usability of what you send us.

Glassware

All of our glassware can be engraved with any of our designs from the design guide, or your own custom design.
